

We're excited that you will be joining us for the Annual Patient Safety Virtual Conference on
Thursday, April 29, 2021.

Please follow the instructions below to view the event agenda, live sessions, claim continuing education credits, and access all other conference information.

Please note that all sessions will be live. **In order to participate in the sessions you must have a Zoom Account.** Please be sure to check that you have the latest Zoom software before the conference on April 29, 2021. You can sign up for a free Zoom account by visiting: <https://zoom.us/>. You will not need a camera or microphone to participate in the conference.

✓ **Viewing the virtual event on your desktop:**

To view the event on your desktop, please visit https://whova.com/portal/webapp/gemap_202104/. *Internet Explorer is **not** compatible with Whova, please plan to use a different web browser for the conference.*

If you do not have a Whova account, you must create one using your email address and choose a strong password, or sign up using a social media account. Once you're signed up, you should be taken directly to the event!

If you already have a Whova account from a previous MPSC event you can login using your existing username and password.
